

GLOBAL HOME EDUCATION EXCHANGE 2027

◆ EXHIBITOR GUIDE ◆

Home Education Lights the Way

MARCH 4–6, 2027

Manila, Philippines

Kickoff Event: March 3, 2027 (Evening)

WELCOME

Thank you for your interest in exhibiting at the 6th Global Home Education Exchange Conference.

We are delighted to invite you to Manila, Philippines, for a gathering that celebrates innovation, freedom, collaboration, and the flourishing future of home education around the world.

Under the theme “Home Education Lights the Way,” this conference recognizes the powerful role that families, organizations, entrepreneurs, educators, and advocates play in illuminating a path forward for future generations.

As the homeschooling movement continues to grow worldwide, Asia has emerged as a beacon of creativity, resilience, and vision. The Philippines, in particular, stands as an inspiring example of what is possible when families, educational leaders, and communities work together to strengthen educational freedom and excellence.

This conference is more than an event. It is a place where ideas are exchanged, partnerships are formed, businesses grow, and a shared commitment to home education is renewed.

Whether you represent a curriculum provider, educational service, publishing house, nonprofit organization, family business, technology company, or advocacy initiative, we are honored to welcome you.

We hope this guide helps you prepare for a successful and rewarding experience as an exhibitor.

WHY EXHIBIT?

Exhibiting at the Global Home Education Exchange offers a unique opportunity to:

- Connect with homeschooling families from around the world.
- Build meaningful relationships with international leaders and organizations.
- Expand your network throughout Asia and beyond.
- Introduce your products and services to a highly engaged audience.
- Explore collaborative opportunities and strategic partnerships.
- Strengthen your presence within the global home education movement.
- Participate in conversations shaping the future of educational freedom.
- Discover new business opportunities in emerging homeschooling markets.

THE PHILIPPINES: A LIGHT FOR THE GLOBAL HOMESCHOOLING MOVEMENT

The Philippines has become one of the most compelling examples of the growth and vitality of home education in Asia.

Homeschooling is fully legal and regulated in the Philippines, recognized by the Department of Education (DepEd) under their Alternative Delivery Modes (ADM). Families may choose to enroll with a DepEd-accredited provider or pursue independent homeschooling — giving families meaningful flexibility in how they educate their children.

With a vibrant homeschooling community, innovative educational initiatives, and a spirit of hospitality and collaboration, the country offers a model worthy of international attention.

As homeschooling families around the world seek encouragement and practical examples, the Philippines shines as a light that points toward possibility, perseverance, and hope.

In many ways, this conference embodies its theme:

“Home Education Lights the Way.”

By gathering in Manila, we celebrate not only the progress of homeschooling in the Philippines but also the collective wisdom of a worldwide movement committed to raising future generations in truth, goodness, and beauty.
